FOGO DE CHÃO UNDERGOES \$1 MILLION RENOVATION

Fogo de Chão announced the completion of a \$1 million renovation of its flagship U.S. location in Addison, including raising the ceilings in the salad bar and dining areas to 13 feet.

The finishes in Fogo de Chão have also

been updated, such as Brazilian eucalyptus, which was purchased as part of the Lyptus project, an initiative in Brazil that promotes the use of sustainable woods. New amber glass chandeliers were added throughout to complement the golden tones of the eucalyptus.

The gourmet salad and side bar was redesigned with new finishes and lighting in order to draw more attention to this impressive centerpiece of the Fogo experience. The glass-enclosed wine cellar has been expanded and now offers patrons a view of the 3,000-bottle, *Wine Spectator* award-winning wine selection. The private dining areas have also been updated and can now accommodate 10 to more than 100 guests. For more information or to make a reservation, please call (972) 503-7300 or visit fogo.com.
